Eigenschaften

Modern lidded bin in Combicolor design.
Dimensions: 600 x 400 x H 190 mm (including lid)

Combicolor lidded bins make “colour coding” possible: each application or department is assigned its own colour combination

The bin is black and the lid is green

The lid is hinged and fitted with two snap-slide closures

The closures snap shut when the lid is closed. To open, the lid is unlocked by sliding the closures outwards

When open, the lid is removable (if designed without hinge reinforcements)

Lidded bins can be stacked with each other - with or without lid

Fully closed design - both walls and base

With closed handgrips - for optimal volume use and protection against dust etc.

The base is completely smooth and flat for easy cleaning

The lid has a particularly striking colour that contrasts with the bin

Widely used in applications where distinction is important

Food-safe and hygienically designed

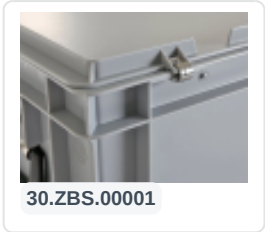

Options: printing - hinge reinforcements - foam sheet in the lid

Omschrijving

Stacking bin with lid container measuring 600 x 400 x H190 mm is a Euro-standard stacking container equipped with a green hinged lid featuring snap-slide closures. The lid container has a smooth, closed bottom and enclosed side walls. The plastic lid is removable when in the open position. The two snap-slide closures make it easy to open the lid. The lockable lid prevents the cargo from getting lost, damaged, or contaminated during transportation. Thanks to its standardized dimensions, the lid container can be stacked with other Euro-containers, both with and without lids. Additionally, the lid container can be perfectly combined without space loss with standardized pallets, bases, and roll containers. We supply foam interiors, seals, and label holders as accessories for the lid containers.
