Glass crate 600 x 400 mm - for 33 glasses: max. height 196 mm / max. Ø 75 mm - double compartment division - grey

Product specifications

External dimensions (L x W x H)	600 × 400 × 224 mm
Internal dimensions (L x W x H)	568 × 368 × 210 mm
Capacity	48.9 liter
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.122.33.UO
Weight (kg)	2,64 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Grey
Bottom	Perforated, reinforced (base implementation no. 15)
European Article Number	7424907742710
Maximum glass height	196
Maximum Ø glass	75
Quantity per pallet	40
Stacking height (mm)	213

Eigenschaften

The dimensions of the glass determine the choice of crate and compartment division: measure the height and diameter at the widest point

Plastic glass crate from the BASIC LINE.
Dimensions 600 x 400 x H 224 mm

Fitted with a double compartment division - for 33 glasses or cups

Maximum glass height: 196 mm - maximum Ø 75 mm

The crate is fully perforated - both the walls and the base

Large perforations ensure optimal access for rinse water and drying air

Suitable for storage, transport and cleaning of glassware and tableware

The compartment division protects against scratches and breakage

The glass crates can be stacked with other Euronorm bins such as plate crates and cutlery bins

BASIC LINE glass crates are ideally used in combination with standardised mobile plastic trolleys, roll containers and pallets

Options: loose-fit lid - printing (short side) - coversheets

Omschrijving

Please note - before ordering!

The dimensions of the glass determine the choice of crate and compartment division. Measure the exact height of the glass and the diameter at its widest point.

Plastic glass crate in **Euronorm format** (600 x 400 x H 224 mm). Finished in **grey** and part of the successful **BASIC LINE**. The glass crate is suitable for **33 glasses** or tableware with a maximum **height of 196 mm** and a **maximum Ø of 75 mm**. The glass crate is highly suitable for efficient storage and safe transport of glassware and tableware. In addition, the crate can be used in suitable dishwashers to clean the glassware. **One crate** therefore for **storage, transport and cleaning**.

Thanks to the **standardised dimensions** (600 x 400 mm), the stacking bin is **stackable with all other Euronorm stacking bins** (including plate crates or cutlery bins) and **perfectly compatible** with **standardised pallets** and **mobile plastic trolleys** or **roll containers**. This makes logistics efficient and **without loss of space**.

Application

The glass crate is fitted with a 33-compartment division, both at the top and at the bottom. The crate therefore provides 33 individual positions for glasses and, for example, cups. The tableware does not come into contact with each other and is therefore optimally **protected against scratches and breakage** during cleaning, storage and transport. **Rinse water** and **drying air** have **easy access** to the contents of the crate thanks to the coarsely perforated side walls and base. The glassware is therefore completely clean after washing in the glass crate.

The BASIC LINE is mainly used by rental companies, in the hospitality industry and by catering companies. Associations and company canteens are also satisfied users of this product range.
