Bedrukking mogelijk

Plastic pallet CR1 Eco-DUO - 1600 x 1200 mm - without rims - 5 pallet runners

Product specifications

External dimensions (L x W x H)	1600 × 1200 × 160 mm
Dynamic load capacity	1000 kg
Material	Recycled ECO-HDPE
Article number	83232242.DUO.B
Weight (kg)	32 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Black-blue
Static load capacity	5000 kg

Eigenschappen

Large-format plastic pallet size 1600 x 1200 x H 160 mm

Made from new high-quality recycled HDPE, exceptionally impact-resistant and durable

Suitable for contact with packaged food and for use in freezing conditions.

The CR1 Eco-DUO is based on the CR1 Eco pallet and features blue anti-slip strips on the top deck, but has no raised rims all around.

In this version, two CR1 Eco pallets are sustainably welded together

The CR1 Eco-DUO pallet is equipped with 5 pallet runners

Extremely strong and robust, making it the ideal solution for large-format loads

CR1 Eco pallet runners are chamfered on both sides for smooth handling with pallet trucks

The rimless design prevents damage to and loss of large panels and sheets, for example in the packaging industry; anti-slip strips on the top deck ensure safety and secure the load.

The CR1 Eco pallet is extra strong thanks to an angled connection between the pallet runners and the blocks

This minimises breakage at these sensitive points

The stated dynamic load is based on an evenly distributed load and a wide forklift tine position

Omschrijving

Plastic large-format pallet (1600 x 1200 x H 160 mm), type CR1 Eco-DUO , made from high-quality recycled HDPE granulate. Based on two pallets of type CR1 Eco, which are sustainably welded together. Equipped with 5 pallet runners, underside blocks are closed and pallet runners are open (ribbed). Without rims on the pallet deck. The pallet deck is equipped with integrated blue anti-slip stripes. Static load capacity is 5000 kg and dynamic load capacity 1000 kg. Maximum dynamic load of 1000 kg with evenly distributed load and a wide forklift tine position. Various organisations use the large-format pallets to their full satisfaction.

General

The dimensions of custom-made pallets are aligned with the customer's requirements as much as possible. However, the existing pallet construction is decisive for the welding work. As a result, the achievable dimensions may deviate by a few centimetres.
