

Plastic trolley - universal - rubber swivel castors

Product specificaties

External dimensions (L x W x H)	615 × 415 × 185 mm
Dynamic load capacity	250 kg
Material	ABS
Article number	2800.520.312
Weight (kg)	4,2 kg
Color	Orange

Eigenschappen

The trolley frame has a stepped structure and is therefore suitable for different base sizes.

Trolley 2800.520.312 is provided with four Ø 100 mm swivel castors with non-marking rubber tread and galvanised housings.

Omschrijving

Plastic dolly 615 x 415 x H185 mm. The base is equipped with four galvanized swivel casters with plastic wheels Ø100 mm (PP). For easy transport of 600 x 400 mm or two 400 x 300 mm containers. The mobile base is heavily loadable and therefore an excellent tool for moving Euro norm containers and crates. Due to the stepped shape of the frame, it is also particularly suitable for containers with deviating bottom dimensions, such as nestable containers with a conical shape.
