# PP washing tray - side walls - high divider - Techrack

## Product specificaties

|                                  |                                                              |
|----------------------------------|--------------------------------------------------------------|
| External dimensions ( L x W x H) | 600 × 400 × 110 mm                                           |
| Internal dimensions (L x W x H)  | 560 × 360 × 72 mm                                            |
| Handles                          | Open, for more comfortable carrying                          |
| Sidewalls                        | Open, for optimum washing result and a faster drying process |
| Material                         | PP                                                           |
| Article number                   | 50.CR.602.08.TR                                              |
| Temperature range                | -10°C to +70°C                                               |
| Bottom                           | Open and extra reinforced                                    |

## Eigenschappen

**Transport safely:** safe transport in trays with plastic partition dividers.

**Efficient cleaning:** best cleaning and drying results with Techrack trays' open design.

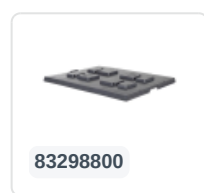

**Store purposefully:** standard Euro dimensions of 600 x 400 mm: ideal for storage on plastic pallets or roll containers.

**The Techrack system** consists of a base tray, an intermediate frame and a top frame with partition sizes; the tray is assembled with extenders.

**The Techrack basic version** is suitable for cleaning processes that use diluted solutions; colour grey.

Dividers and tray height can be adjusted to fit the contents precisely - minimum partition size is 13 x 13 mm, which is extendable in 15 mm stages, by both length and width, to suit the requirement.
