E1 stacking bin - 600 x 400 x H 125 mm

- ventilated upper rim - smooth base - blue

Product specificaties

External dimensions (L x W x H)	600 × 400 × 125 mm
Internal dimensions (L x W x H)	558 × 358 × 120 mm
Capacity	20 liter
Handles	Open (four openings)
Sidewalls	Closed, with ventilation openings
Material	HDPE
Article number	18.6412.0013
Weight (kg)	1,5 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Blue
Bottom	Closed, smooth
Colorcode	RAL 5002
Load capacity (kg)	15
Quantity per pallet	76
Stacking height (mm)	112

Eigenschappen

E1 stacking bin / Euro meat container - blue.
Dimensions: 600 x 400 x H 125 mm

Blue version of the red Euro meat container in pool design - with the same proven product properties

The upper rim of the bin is fitted with ventilation openings and integrated open handgrips on all 4 sides

The rest of the bin has a closed design with a smooth base

Usually used in combination with the EURO H1 plastic pool pallet with red GS1 approval mark

Designed with minimal ribbing - for easy cleaning and optimal hygiene

Fitted with a studded area on all 4 sides for temporary stickers

Made from 100% virgin granulate - freezer-resistant - food-safe

Options: coversheets - other colours: white - yellow - grey - green - blue - black

Omschrijving

E1 Euro meat container in blue

E1 plastic stacking bin (600 x 400 x H 125 mm - 20 liter) in blue. Blue version of the E1 Euro meat container in pool design (red). With a ventilated upper rim for optimal cooling.

Application

The blue E1 stacking bin is identical to the red pool version of the E1 bin. The blue version is also used as a meat bin, but usually internally or in closed external circuits, for example with one specific customer. The special colour is used to distinguish between different departments or applications. This colour variant is also widely used as a universal fresh produce crate for products where ventilation and cooling play an important role, particularly food products. Thanks to their Euronorm format, E1 stacking bins can easily be used with standardised mobile plastic trolleys and plastic pallets. Our EURO H1 pallet with red GS1 approval mark was developed as a standardised pallet for the E1 bin. Other plastic pallets from our range are also excellent load carriers for this blue E1 stacking bin.

Product details

The E1 bin has a ventilated upper rim with integrated handgrips on all 4 sides. This ensures optimal ventilation and cooling of meat products, as well as easy handling. The bin is fitted with studded areas for temporary stickers.

Thanks to its standardised dimensions, the E1 Euro meat container can be used seamlessly with all other Euronorm stacking bins, as well as with standardised mobile plastic trolleys or roll containers. Our EURO H1 plastic pool pallet (1200 x 800 mm) with GS1 approval mark was also developed for the safe transport of E1 stacking bins. For users of industrial-size pallets (1200 x 1000 mm), we offer the H3 plastic pallet. All types of Euronorm bins can also be transported safely on this pallet. In all cases, the Euronorm dimensions ensure safe and efficient use.
