Bedrukking mogelijk

LIGHT stacking crate - 400 x 300 x H 240 mm - fully perforated - grey

Product specificaties

External dimensions (L x W x H)	400 × 300 × 240 mm
Internal dimensions (L x W x H)	366 × 266 × 225 mm
Capacity	22 liter
Handles	Open
Sidewalls	Perforated
Material	PPC
Article number	30.L424.OH.1
Weight (kg)	0,91 kg
Temperature range	-20°C to +50°C, briefly up to +90°C
Color	Grey
Bottom	Perforated, reinforced
Colorcode	RAL 7040
Max. load capacity per box	15 kg
Quantity per pallet	36
Stacking height (mm)	227

Eigenschappen

Modern grey stacking crate in LIGHT version.
Dimensions: 400 x 300 x H 240 mm

The LIGHT series is fully perforated - both the walls and the base

The perforations ensure optimal ventilation - helping to prevent spoilage of fresh produce such as fruit and vegetables

Condensation and leaking moisture are drained away through the open construction

The stacking crates can be stacked with each other and also with Euronorm bins without lids

With open handgrips for optimal carrying comfort

Food-safe and hygienically designed - with minimal ribbing

Options: printing - hinged lid

Omschrijving

LIGHT stacking crate

Stacking crate from the LIGHT series in a fully perforated design - both walls and base. The dimensions are Euronorm (400 x 300 x H 240 mm - 22 liter). This allows the lidded bin to be stacked with all other Euronorm bins and crates.

Applications

Our LIGHT series is a modern product line with rounded corners and minimal ribbing, which also reduces the weight. This makes LIGHT stacking crates particularly easy to handle and very user-friendly. Because the stacking crates are fully perforated - both walls and base - they are ideal for applications with products that need ventilation, such as fruit and vegetables. Any condensation or leaking moisture is drained away through the open construction. In addition, the open construction of the stacking crate ensures visibility of the contents. This is often required in both commercial and private use. Our LIGHT stacking crates are ideal for private use, but stronger and more durable than crates for household use.
