LIGHT stacking box with lid - 600 x 400 x H 335 mm - fully perforated - grey

Product specificaties

External dimensions (L x W x H)	600 × 400 × 335 mm
Internal dimensions (L x W x H)	553 × 354 × 305 mm
Capacity	63 liter
Handles	Open
Sidewalls	Perforated
Material	PPC
Article number	30.L632.DK.1
Weight (kg)	2,5 kg
Temperature range	-20°C to +50°C, briefly up to +90°C
Color	Grey
Bottom	Perforated, reinforced
Colorcode	RAL 7040
Load capacity (kg)	15
Quantity per pallet	28
Stacking height (mm)	324

Eigenschappen

Modern grey lidded bin in LIGHT design.
Dimensions: 600 x 400 x H 335 mm (including lid)

The LIGHT series has a fully perforated design - both walls and base

The perforations ensure optimal ventilation - to prevent spoilage of fresh products such as fruit and vegetables

Condensation and leaking moisture are drained away through the open construction

When open, the lid is removable (if designed without hinge reinforcements)

Lidded bins can be stacked with each other, as well as with Euronorm bins without a lid

With open handgrips for optimal carrying comfort

Food-safe and hygienically designed - with minimal ribbing

Options: printing - hinge reinforcements - different bin height

Omschrijving

LIGHT stacking box with lid

Lidded crate from the LIGHT series in a fully perforated design - both walls and base. Fitted with a hinged lid with two snap-slide closures. The dimensions are Euronorm (600 x 400 x H 335 mm - 63 liter). This allows the lidded bin to be stacked with all other Euronorm bins and crates.

Applications

Our LIGHT series is a modern product line with rounded corners and minimal ribbing, which also reduces the weight. This makes LIGHT lidded crates particularly easy to handle and very user-friendly. Because the lidded crates are fully perforated - both walls and base - they are ideal for applications with products that need ventilation, such as fruit and vegetables. Any condensation or leaking moisture is drained away through the open construction. In addition, the open construction of the lidded crate ensures visibility of the contents. This is often required in both commercial and private use. Our LIGHT lidded crates are ideal for private use, but stronger and more durable than crates for household use.
