

XL-size pallet box CB3 High – 2070 x 1000 x H 1140 mm – 1750 liter – DUO extended version with flap – grey (custom-made)

Product specificaties

External dimensions (L x W x H) 2070 × 1000 × 1140 mm

Internal dimensions (L x W x H) 1970 × 897 × 983 mm

Capacity 1750 liter

Sidewalls Reinforced

Material HDPE

Article number SALE-83271810.DUO-L2070.LK+DEK

Weight (kg) 102 kg

Temperature range -30°C to +40°C, briefly up to +90°C

Color Grey

Bottom Closed, reinforced

Max. load capacity per box 1000 kg

Eigenschappen

Large hinged flap measuring 1740 x H485 mm on one long side

Flap made of weather-resistant black PE sheet material

Fitted with a stainless steel hinge

Secured with two stainless steel toggle latches

Includes a matching custom-made loose lid

Connecting seams of both the DUO box and DUO lid are welded

Welded seams help reduce the ingress of moisture and dirt

The centre runners on the long sides have been removed; easy access with a pallet truck or electric pallet truck

Robust custom-made solution for large and heavy products

Omschrijving

The CB3 High DUO pallet box is a robust XL-format pallet box with external dimensions of 2070 x 1000 x H1140 mm and internal dimensions of 1970 x 897 x H983 mm. The pallet box has been specially adapted for the storage and transport of large and heavy products and has a maximum load capacity of 1000 kg.

This custom-made version is fitted with a large black hinged flap measuring 1740 x H485 mm on one long side. The flap is made of weather-resistant PE sheet material and provides easy access to the contents of the pallet box. Thanks to the stainless steel hinge and two stainless steel toggle latches, the flap can be securely closed.

The pallet box is supplied with a matching custom-made loose lid. The connecting seam between the individual sections of both the DUO box and the DUO lid is welded. This helps to minimise the risk of moisture and dirt entering through the connecting seams.

For easy handling, the centre runners on the long sides have been removed. This allows easy access underneath the pallet box with a pallet truck or electric pallet truck. Despite its large dimensions, this makes the pallet box practical for use in internal logistics processes.
